

New NEMA Starter Selector

COMPAS Release Update, November 2019

Introducing the **New and Improved NEMA Starter Selector** designed to further streamline your quote creation workflow.

Features:

- We've improved the filters interface to make it easier for you to narrow down your search
- List price, voltage and other criteria are shown upfront. No more going back and forth between search results and product pages.
- Add to quote directly from the search results. Saves you a click and let's you focus on what's important.

Who can use this?

All COMPAS Go users including Channel Partners and Sales
